VISIONECT

The greenest digital sign.
A cable-free electronic paper display
with full CMS integration and up
to a year of battery autonomy.

Welcome to the future of signage.

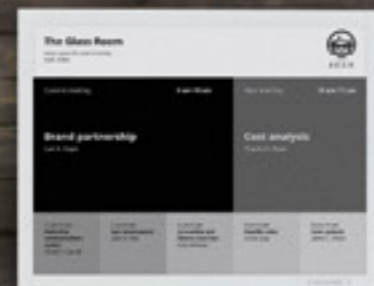

Keeping things simple can often turn out to be the most complex task. At Visionect, we believe that digital signage shouldn't be that complicated. From installation to integration and content management, our products are created to fit, seamlessly and without hassle. Sustainable and green, Visionect technology is unparalleled when it comes to low energy consumption and display visibility. In delivering this accessibility, everything boils down to one simple truth: nothing beats experience. And when it comes to experience, nothing beats Visionect.

Matej Zalar
CEO of Visionect

Introducing Place & Play.

Meet the Place & Play signage family. Effortless to use, with not a wire in sight. The only all-in-one digital signage device combining mount, display and player. Up to 12 months of battery autonomy. Support for all content management systems. It's as easy to use as the name suggests.

The future. Elegant and green.

A 13-inch electronic paper display, 99% more energy efficient than comparable solutions. Enclosed in a precision-brushed aluminum casing, enforced with the most durable glass pane ever created to protect from scratching and hazing. Sustainability meets design.

Available in Graphite Black and Slate Gray.

SIZE (H/W/D)

230 x 297 x 10.5 mm
(9.05 x 11.40 x 0.39 in).

CONNECTIVITY

2.4 GHz Wi-Fi (IEEE 802.11 b/g/n) standard,
WPA2-PSK, WPA2-EAP support.

DISPLAY

E Ink® Carta electronic paper display. 16-level
grayscale, 750 ms (4 bit full screen) / 100 ms
(1 bit partial) refresh rate. A 13-inch screen with
a 4:3 diagonal. Resolution of 1600 x 1200 px.
Reflective electrophoretic technology with
a 180° viewing angle.

BATTERY

High performance rechargeable
Lithium-Polymer 10,000 mAh battery.
Up to 12 months of autonomy on
a single battery charge.

ENCLOSURE

High quality anodized aluminum casing.
Anti-reflective, high transmissive glass.

MOUNTING

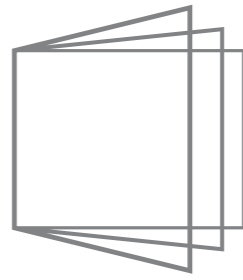

Built-in Magnetic Mount. 100 x 100 mm
(3.94 x 3.94 in) VESA mount compliant.

All-in-one

An all-in-one signage system. Display, player and mount. And not a wire in sight.

Place & Play

Completely cord-free, for effortless indoor installation.

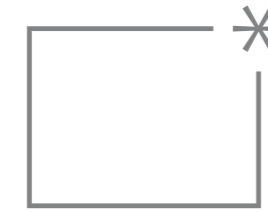

Green

99% more power efficient than LCD or LED. Up to 12 months of battery autonomy.

CMS

Supports all major content management systems. Easily display any web link.

Superb design

Meticulously built for a seamless look and feel.

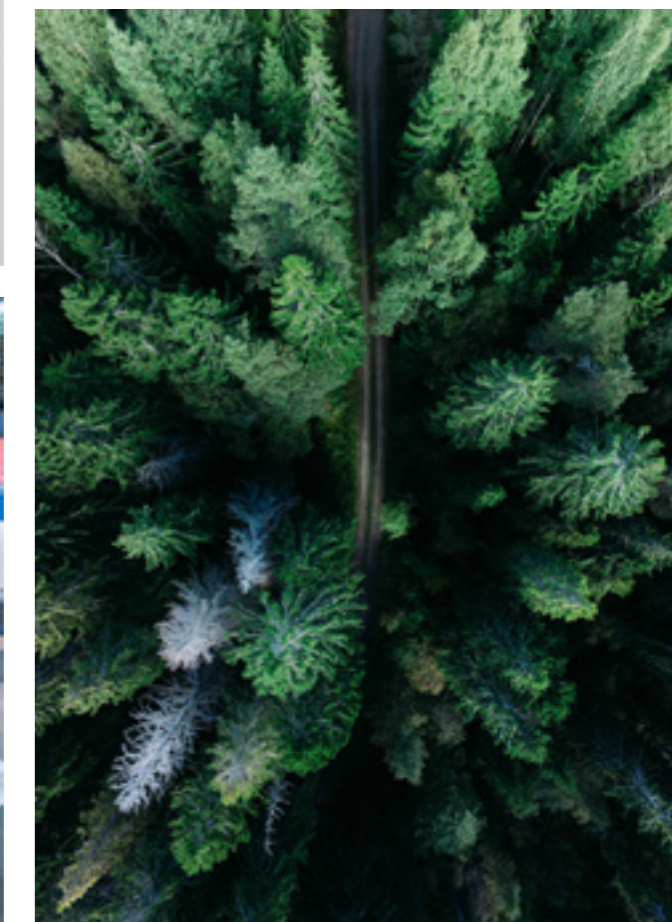

Paperlike

No glare, no light pollution. The feel of ink on paper.

Your message.
As simple as place & play.

Any industry, anywhere. Airports, hotels, offices, restaurants,
banks, museums, shops, hospitals, schools. Intuitive setup.
No wires, no installation. Works straight out of the box.
Getting your message across is a simple matter of place & play.

visionect.com

A minimal carbon footprint for a better world.

Place & Play products are 99% more energy efficient than LCDs or LEDs thanks to Visionect expertise and E Ink® electronic paper technology. They are by far the greenest, most sustainable digital signs on the market. Offering an unparalleled battery life, measured in months, Place & Play products are created from fully recyclable materials. Forget about charging. Focus on your content. And go green.

Visionect. Powering a new era of innovation.

Visionect is the world leader in deploying digital signs in environments impossible before, leading the global revolution with greener and better displays. Setting a new standard in versatile, ultra energy-efficient signage, Visionect electronic paper products and solutions are conquering the globe, from New York to Tokyo.

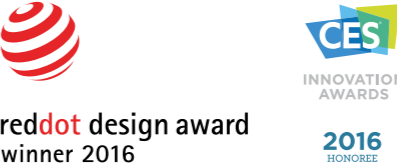

The simple beauty of electronic paper lies in how quietly it integrates with the environment. Visionect has realized this simplicity with grace, elegance and style.
