

JOAN

JOAN CLASSROOM

Making education smart with classroom scheduling.

No wires. An easy, zero-cost installation.
Even on glass or wood.

Integration with the 25Live scheduling
program from CollegeNET.

Cost-saving. No need for printed
schedules or manual updates.

Greenest solution. 99% more power
efficient than other displays.

Education is all about smart. So why are some elements of school life anything but? JOAN Classroom is the newest member of the JOAN family of room scheduling solutions, a breakthrough device created to help universities and schools manage their rooms and resources more efficiently.

Say goodbye to printed classroom schedules and labor-intensive schedule updates. No need to attach confusing paper timetables next to each lecture hall or classroom. The 13-inch JOAN Classroom effortlessly displays the daily schedule for a classroom right where students need it most, at the classroom door.

Always in real-time, always with the most up-to-date information.

Optimize resources and go green. Zero installation costs and absolutely no wires, with a battery life of as much as 12 months.

Say hello to the most effective on-campus communication.

Developed in cooperation with Ivy League universities.

Created in cooperation with the most prestigious institutions of higher education to deliver true functionality.

The next-generation classroom display, with unparalleled simplicity of use and installation:

- 13-inch non-touch screen. Shows the lecture currently taking place, the one coming up and the 5 that follow.
- Completely cable-free. Up to 12 months of battery life.
- Zero installation costs. Installed in minutes anywhere and by anyone. Magnetic Mount included, VESA mount compatible.
- Integration with 25Live from CollegeNET. Instant real-time updates, across all locations.
- Paperlike readability. No glare, no light pollution. An elegant device that feels at home in any interior.
- Premium design. Built for an ultra reliable solution. Available in black or gray.

For a paperless school with a light ecological footprint.

JOAN Classroom is completely cord-free and does not require access to power. Its superb energy-efficiency and a battery life of months make it one of the greenest technologies out there, using 99% less power than LCD or LED.

Simple.

Designed based on user feedback to be the simplest and most intuitive scheduling solution out there.

Cost-saving.

Up to 12 months of battery life. Real-time updates. Saves thousands in energy bills and printing costs.

Green

A light environmental footprint for the greenest campus. 99% more power-efficient than LCD displays.

Secure.

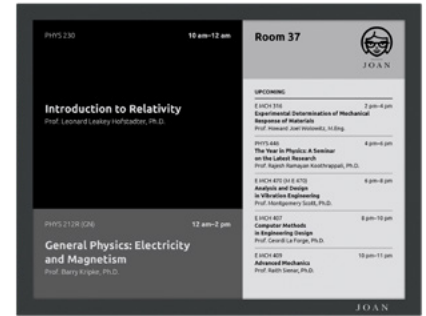

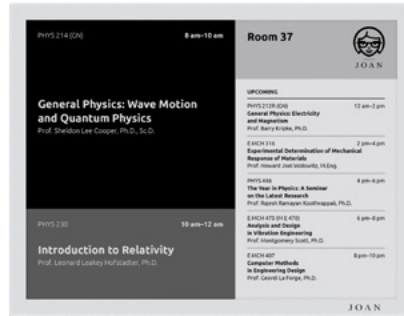

Our extensive experience in global deployments, combined with our communications expertise, makes JOAN secure and reliable.

Beautiful.

No buttons. No wires. Designed and meticulously built in Europe for a seamless look and feel.

Optimize resources and save money.

JOAN Classroom completely removes the need for paper-based timetables and enables universities to manage their schedules in real time, with minimum effort and minimum energy. Say goodbye to labor-intensive updates of printed classroom timetables, scheduling errors and inefficient use of spaces. Save thousands in energy bills and printing costs.

Integration with 25Live and Rave Alert™

JOAN Classroom is integrated with 25Live® from CollegeNET, the calendaring and publishing program used by the majority of higher education institutions. Search dates and venues and schedule campus space and resources, and seamlessly post it to JOAN Classroom.

Coming soon: Integration with the Rave Alert™ mass notification system. Make your campus a safe and secure space. In case of emergencies, transform JOAN Classrooms into information screens displaying relevant alerts at key points across the campus. The technical characteristics of JOAN’s electronic paper display mean that the latest notification will always remain on screen, even in case of a power failure.

Powering a new era of innovation.

Visionect, the maker of the award-winning JOAN room scheduling solutions and the force behind the breakthrough Place & Play signage concept, is the world leader in deploying electronic paper in environments impossible before. Visionect technology is unparalleled in versatility, ultra-low power consumption, ease of installation and simplicity of use, and continues to set new standards powered by a decade of market-leading expertise.
