SAVE A SPACE FOR YOUR MEETING. OPTIMIZE THE WAY YOU MEET. WORK BETTER.

Open-plan offices and collaborative work environments are often chaotic, noisy and full of distractions. That's why teams often meet in huddle rooms to plan and get work done more efficiently. With regular meetings spread out through the day, grabbing a meeting room at the last minute can be a challenge. In an office filled with people everybody needs a meeting room at the same time. And the hunt for meeting rooms is real.

"Joan is the simplest, easy-to-use product for room management that we've ever seen."

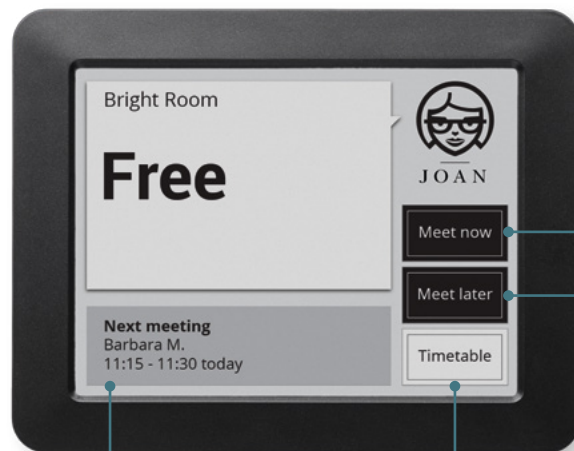

— Rob Corrigill, TeleWare CTO

"Joan has been fantastic for our ever-growing office. It's definitely saved us some time and boosted productivity as a result."

— Courtney Fletcher, Editor-in-Chief,
HuffPost Australia

MEET JOAN.

JOAN brings order to the process of booking a meeting room. It allows you to book on the spot, right at the meeting room door, or remotely on your computer or smart device. It shows meeting information, the meetings coming up and eliminates meeting interruptions by clearly signalling the room is occupied and until when.

Claim a space for a quick sync and walk right in.

Select a time slot and book a meeting later in the day.

See which meeting is coming up next and when.

Check the timetable for the meetings coming up.

EFFORTLESS MANAGEABILITY.

JOAN easily integrates with existing office infrastructure. It connects to your Wi-Fi and company calendar, and supports G Suite (Google Calendar); Office 365, Microsoft Exchange (Outlook); and iCalendar (.ics).

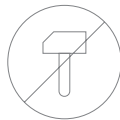

JOAN can be attached to any surface, even glass, with a specially designed magnetic mount that doesn't require any tools, bolts or brackets. It is completely cordless and offers a battery life of months due to its minimal power consumption. Forget about charging. Focus on your work. And go green.

Seamlessly connects to Wi-Fi.

Supports standard company calendars.

Cordless installation on any surface with a magnetic mount.

99% more power and a battery life measured in months.

MAKE IT YOUR OWN.

Users can easily customize JOAN according to their wishes. Select a language, upload the company logo and set JOAN's office hours. Play with JOAN's features until it fits the way you work.

A MINIMAL CARBON FOOTPRINT FOR A BETTER WORLD.

JOAN is 99% more energy efficient than LCDs or LEDs thanks to Visionect expertise and E Ink® electronic paper technology. It is by far the greenest, most sustainable room booking system out there, offering an unparalleled battery life, measured in months.

info@getjoan.com

JOAN is an epaper meeting room booking display developed by Visionect. It is marked by unparalleled energy efficiency, simplicity of installation and use, and mainstream affordability. It simplifies room booking and improves office usability, eliminating meeting room conflict and helping people work better. | getjoan.com
